

Language Arts

In reading we are reading more and more Dr. Seuss books. We are even doing some Cat in the Hat drawing and One Fish, Two Fish, Red Fish, Blue Fish painting art project.

March Newsletter

We are going to try to catch some leprechauns by building traps before spring break!

Notes and Reminders:

- Spring Break will be March 16-20, there will be no school.

Have a relaxing and resting spring break and we will see you on Monday, March 23rd

Kindergarteners will be designing "green prints" and using our physical science ideas with simple machines to build a leprechaun trap before Saint Patrick's Day. Your child may bring in a grocery size bag with supplies from home to use. Things that have worked well in the past are: boxes, paper towel rolls, fun design, duck tape, string, etc. I will have some community supplies for kids to use as well, but it is fun for them to bring in some things from home to use. Supplies need to be at school by Thursday, March 12th.

Math

This month in math the Kindergarteners are practicing addition and subtraction problems using our stories with three characters. We will act out story problems as well as drawing them out and sharing together.

After Spring Break we will begin our next science unit of living things plants and animals.

Social Studies for the month of March will focus on learning about different Native American tribes and lessons in Montana.
